Exam case #3

CANDIDATE'S INSTRUCTIONS

A patient approaches you for a new medication prescribed for her condition. Kindly counsel her as you would in practice. Also, assist her with any concerns she has regarding her condition.

Time Frame: You have 7 minutes to complete this station.

SP instructions:

•**SP ‘s opening statement** , I have come here to pick up a new prescription .

•If candidate says why did the Dr. give it to you say ‘Oh, I don’t want any baby now. Upon questioning, SP also says ‘she wants to try the patch. Pills seem to be a bit inconvenient for her.’

•If candidate says, what medications are you taking as of now, say its in my profile.

•If the candidate says, do you use all of these as of now as per directions – say yes. Upon questioning, SP says she is using a back up method while taking Moxifloxacin as the pharmacist told her the other day.,

•About Tums, SP says ‘It's not a regular thing. I take it sometimes if I have a heart burn once in a while. My doctor advised me like that.

•If candidate asks about appropriate spacing between TUMS and Moxifloxacin & Alesse, SP says yes.

•Lifestyle: **Smoking:** no; **Alcohol:** In weekends with friends/ in parties1 to 2 glasses, **food:** Regular. **Goes to gym**

•If not explained by the candidate the SP has to ask ‘When should I start using the Patch/ Should I use both the Pills and Patch together for now?’

•If not explained by the candidate the SP has to ask ‘What should I do with rest of my Pills?’

•TIPS

SOLVED:

- Counselling on Evra Patch
- **Explain how and from when to start** (1st day of menstrual period, or 1st Sunday period start, can start now in the middle of the month: Make sure that a backup method is used for the first 7 days
- **Explains how to switch from OCP to Evra Patch**, and what cautions to be taken.
- **Dosage:** Apply to the arm or shoulder or less hairy area. Apply 1 patch for 1 week then apply 3 weeks then 1 week do not apply (patch free). Avoid applying on the breast.
- **Side effects:** This medication can cause irritation or redness at the site of application. Wash the site with and rotate the application. May experience nausea, breast tenderness, and breakthrough bleeding.
- **Counsel symptoms to watch: ACHES**: abdominal pain, chest pain, headache, eye problem and severe leg pain. If this occurs you should talk to your doctor.
- If the patch falls or is removed for more than 24 hours apply a patch and also use a back contraception method for 1 week.
- These methods do not prevent STDs.
- Address patient concerns of using pills.
- **Follow up:** I will call you to discuss about your medications in 1 to 2 weeks.
